Aug 7	Aug 27	21	\$5,995

The Charlie programs combine our sailing excellence with our knowledge of the underwater world. Both locations provide some of the finest sailing and diving conditions anywhere. You'll see the best of them, sailing onboard your 50' monohull yacht, from one isolated island anchorage to another, where our professional dive staff will meet you to take your adventure even deeper. As a previously certified diver on Charlie, you'll soon float effortlessly through a crystal-blue underwater world full of rainbow-colored fish, coral, and other exotic sea creatures. Add to that a variety of watersports and onshore activities and you have one of the most exhilarating and fulfilling island adventure programs you can possibly imagine.

There are actually two itineraries on our Charlie Programs - one above the waves and another beneath. You're never far away from an amazing diving opportunity. Sailing each day, you'll visit the most famous locations in the Caribbean, as well as some quiet hideaways where you'll see a side of the islands that only the locals know. Can you imagine a better way to travel toward your next dive site than to sail to it? After you've dropped anchor and hopped aboard our dive boat, you're ready to giant stride into amazing underwater sites.

These islands offer exceptional conditions for mastering both sailing and scuba diving. Together with your crewmates, you'll learn by doing. Our

staff is there to teach and guide you, but it'll be your hands on the wheel and your muscles that grind the winches to trim the sails. Learning will come more naturally than you can imagine, and before long, you'll be sailing with confidence from one beautiful anchorage to the next.

And of course we know you're here to dive, so in addition to our traditional sailing curriculum, our Charlie program is a scuba camp focused on dive education. Through our PADI 5-Star Instructor Development Dive Center, Charlie offers scuba certifications and options beginning at Advanced Open Water right through to those who have their sights set on the first professional rating of Divemaster, or even Instructor. Some BVI Charlie program students eagerly pursue multiple certifications; others choose to enjoy recreational diving. The depth and strength of Sail Caribbean's dive staff and the versatility of our fleet of custom dive boats allow us to work with you at your own pace.

The Charlie programs focus on scuba diving, though there's still enough time to explore the islands. For those who want to make waves with watersports, there's waterskiing, wakeboarding, tubing and windsurfing. You and a buddy can take a kayak and explore a hidden cove. With community service, you'll also give a little back to the islands, and grow in the process, by working with local youth and

restoring a bay to its natural beauty. Or, you might even take a break to stretch out on the beach and catch up on writing in your personal journal.

"I was impressed Mitchell was able to be certified in so many different aspects of diving. He learned more than I imagined he would."

Mark Dismore, Rogers, AR
